## LONG CHAIN BEAMER

**For ensuring a superior yarn opening performance**

提供优越的集束纱线整经性能

### Your benefit

- Real-time yarn tension control during the entire order thanks to compensator regulation
- Energy feedback at the tension stand
- Optional equipment to meet all customer needs
- Touchscreen ensures intuitive operation of the machine
- Up to 20 % greater efficiency during beaming

### 您的优势

- 在整个生产过程中, 张力补偿调节装置让纱线张力得到实时控制
- 张力控制台反馈能量
- 满足客户所有需求的选配
- 触摸屏操作界面直观简单
- 整经效率提高20%

- 1 Compensator unit  
张力补偿装置
- 2 Touchscreen  
触摸屏

## Product features 产品特点

- Long Chain Beamer for ensuring a superior yarn opening performance
- Best beam quality when processing fine and coarse yarns
- 确保优越的集束纱线整经性能
- 加工细纱和粗纱时都提供最佳的经轴质量

## Technical facts 技术参数

Max. speed 最大速度	500 m/min
Max. yarn tension 最大纱线张力	450 N
Working width 工作宽度	1,800 mm
Max. beam flange diameter 最大盘头直径	1,000 mm
Pressure roller 压辊	Optional 选配
Pneumatic beam doffer 气动式上落轴装置	Optional 选配
Tub-Turner 纱桶旋转台	Optional 选配
End-break detector 断头检测器	Optional 选配
Selvedge yarn winder (SEW) 单纱卷绕装置 (SEW)	Optional 选配
